SMART Goals

- **SMART** is a simple way to check if your goal is good.
- It helps you see whether your goal is clear, realistic, and useful for your learning.
- Use it as a quick check before you start studying.
- If you can answer **all five points**, your goal is clear enough to begin.

Specific	**I know exactly what to do.**
Measurable	**I know when I'm finished.**
Achievable	**I can do this, even on a bad day.**
Relevant	**This helps me in class or exams.**
Time-bound	**I have a clear deadline.**

SMART Goal Examples for Grammar

The tables below show examples of SMART study goals. Choose one example that matches your level and use it as a model to write your own goal.

B2 – Grammar

SMART	EXAMPLE
Specific	Use first and second conditional structures accurately
Measurable	10 sentences (5 first conditional, 5 second conditional)
Achievable	Write sentences expressing real and hypothetical situations
Relevant	Helps with argumentation, discussion, and academic writing
Time-bound	50 minutes, today

My SMART Goal:
In 50 minutes, today, I will practise first and second conditionals by writing 10 sentences: 5 about real future situations and 5 about hypothetical situations. I will then write one short paragraph expressing an opinion using at least 3 conditional sentences.
